Job description- forming and finishing concrete, wood and steel framing, hanging and finishing drywall, setting door frames, hanging doors and all hardware involved, installing bathroom partitions, installing base, shoe mold and chair rail, ceiling grid and tile, tin ceiling, demolition, footings, Bracing and installing support columns for damaged floor systems, setting anchor bolts, and fencing

Job Skills

Concrete: I can form walls, columns, light pole bases, sidewalks, steps, anchor bolts and bulk heads for footings. I have also worked on five elevator pits. I can do slick broomed or exposed aggregate finishes and tie any type of rebar.

Framing: I can frame walls, soffits, floors, ceilings, set door frames, and window frames with steel or wood. I have also set prefabricated trusses.

Drywall: I can hang, cut, finish any drywall, and have also hung a lot of dense glass.

Door hardware: I know how to install most door hardware such as hinges, locksets, closures, panic hardware with or without vertical latch rod, push plates, pull plates, kick plates, dead bolts, hasps, and have also done all types of weather stripping on doors including sound proofing, and automatic door sweeps. I can also do bathroom partitions and all hardware involved.

Roofing: I can deck, install tarpaper, and shingles.

Trim: I can install base, shoe mold, chair rail, crown mold, and wainscoting

Machinery: can operate skid loader, back hoe, aerial lift, scissor lift, and all terrain forklifts. My cards expired in February 2010
