PROJECT MANAGER

DESIGN & DEVELOPMENT | MATERIAL COST ANALYSIS | CONTRACT ADMINISTRATION

Highly skilled and results-driven Construction Professional with 15+ years of experience providing expert project management and site supervision approaches to meet all critical timelines and budget parameters. Proven ability to identify complex project issues and develop innovative solutions that align with specific goals. Outstanding communication skills with capacity to interface with owners, subcontractors, and other key project members. Top-notch design, estimating, rebar fabrication, and concrete finishing abilities. Strengths include:

Project Planning & Estimating ■ Leadership & Team Building ■ Contract Negotiations ■ Construction Management
Cost Control ■ Subcontractor Relations ■ Drawings & Schematics ■ Strategic Planning ■ Material Ordering
Process Improvement ■ Client Satisfaction ■ Project Supervision ■ Safety Compliance ■ Problem Resolution

PROFESSIONAL EXPERIENCE

13 RENTAL & FABRICATION, Murphysboro, IL

2011 to Present

Project Manager / Designer / Fabricator

Serve as Project Estimator for successful rebar fabrication company producing approximately 20K lbs. of rebar per week. Design all drawing formats, perform inventory documentation, determine most efficient bar cutting strategies, and streamline estimating and detailing processes. Supervise 5 fabricators, ensure quality craftsmanship, and provide leadership and technical guidance to achieve high levels of performance and productivity. Estimate takeoffs for piping, structural steel, and concrete for sister companies.

- Key player in designing more than 3 different projects per week.
- Recognized as the backbone of the rebar fabrication process.
- Selected to estimate jobs for 3 sister companies, ensure rebar quality, and organize all shipments.
- Consistently produce profitable projects and meet every major deadline.

Structural Steel Designer

Utilized AutoCAD to design internal and external steel project structural drawings. Interfaced with suppliers, project managers, general contractors, and supervisors. Implemented innovative design strategies and promoted positive customer relationships. Managed loading and shipping materials and utilized advanced fabrication machinery.

FRICKE MANAGEMENT & CONTRACTING, Murphysboro, IL

2002 to 2007, 2009 to 2011

Assistant Project Manager

Reviewed and negotiated supplier proposals, issued purchase orders, and ordered new material to drive projects forward. Analyzed shop drawings, documented plan and specification revisions, and organized productive safety and progress meetings. Collaborated with project managers and superintendents to plan, schedule, and initiate daily construction activities. Provided thorough understanding of technical documents with dedication to design and development standards and procedures.

- Assisted in supervising all critical stages throughout \$40M coal handling system project in Lively Grove, IL, the largest coal-fired power plant currently being built in the United States. Built and managed construction of all structures above ground.
- Played key role in completion of material handling system for \$1.5M Knight Hawk Coal Project in Cutler, IL.

- Completed 150' and 250' tunnels and a 80' diameter concrete water tank at Mach Mine in Johnson City, IL.
- Strategically placed project material in correct/precise location, significantly enhancing job operations and project coordination.

LAYNE & SONS CONSTRUCTION, Murphysboro, IL

2000–2009

Carpenter / Laborer

Executed first-class house remodeling projects; demonstrated expertise in roofing, framing, new construction, site layout, and site excavation. Completed complex decks, gazebos, and garages ahead of schedule and within budget.

- Built more than 10 houses, utilizing in-depth concrete experience to lead team during completion of each basement.

MASON CONCRETE CONSTRUCTION, Murphysboro, IL

2002–2005

Concrete Finisher

- Finished approximately 20 basements per year, including several applications of walls and flatwork.
 - Received zero customer complaints due to commitment to producing highest quality results.
-

INTERNSHIPS

LAYNE & SONS CONSTRUCTION, Murphysboro, IL

2008

- Worked as owner's assistant on numerous residential construction projects.
- Interacted directly with customers to determine needs and project materials. Estimated and negotiated contracts with suppliers.

E.T. SIMONDS CONSTRUCTION COMPANY, Murphysboro, IL

2007

- Assisted project foreman on highway and bridge improvement projects.
-
