

The Associated General Contractors of Tennessee Knoxville Branch (AGC) met with representatives from Fulton High School regarding the “Fulton High School Redesign”, “Fulton mentoring program”, and the “School of Skilled Professions”. Dr. Jon Rysewyk, Fulton High School Executive Principal, spoke at the AGC November membership meeting and gave us details about the Redesign at Futon (copy attached).

The AGC is moving forward to work with Fulton in lending support to help determine specific instruction needed to advance the student toward the construction industry.

Other associations have expressed a desire in joining with us in these efforts. Feel free to forward this to your association members to see if they have an interest in getting involved. If you know of other associations who are interested please let Sharon @ AGC (525-2165) know and she will forward them information.

A joint construction industry task force committee will be formed to work with leaders of Fulton High School in training as it relates to “construction” and what needs to be taught on the high school level so it parallels with the construction industry and our jobsites.

If you have an interest in mentoring a student at Fulton please plan to attend the Mentoring Orientation Session which will give us important rules and guidelines for “mentoring” so that we meet the expectations of Fulton with our involvement.

*Fulton Mentoring Program Orientation meeting:*

*December 4, 2008, 9am-12 Noon @ Fulton High School Auditorium.*

*If you plan to attend, please let your association know so they can confirm to Fulton.*

*(Enter school from the Flagpole / Broadway side of building)*
