

Get the year started off on the right foot with your complimentary Safety Meeting App account!

What is Safety Meeting App?

Since 2015, Safety Meeting App has been partnering up with AGC Chapters to help them meet an important need for their members, an OSHA-compliant safety tool for documenting safety meetings, completing checklists, and logging incidents. With so many AGC members having success using Safety Meeting App **AGC of Tennessee** is providing each member with a **complimentary** Safety Meeting App account.

Topics, Checklists, and Resources

With over 1,400 safety topics and many checklists to choose from, the Safety Meeting App database continues to grow to meet the needs of its customers in various trades (**electrical, general construction, roofing, utilities, etc.**). New topics and customized checklists are continually added to meet the safety requirements of growing industries.

What Does this Cost?

The app is provided **free** for your company with a 1-user, all-access account courtesy of our **AGC of Tennessee Chapter**. If you need more users, Safety Meeting App has upgrade options available so that your user seats can grow as your company grows.

Getting Started and Customer Support

To get your company set up, email to Jenny at Safety Meeting App with the information below. You can also reach them on LiveChat at www.safetymeetingapp.com and provide the information below to an SMA support representative to set up your account. Members will be reached out to soon after the information is provided so be on the lookout for a follow-up email or phone call. You will be offered a brief tutorial on how to use the app and customer portal.
