

# SIGN UP FOR WEEKLY SAFETY MEETINGS

**Weekly** safety training takes about ten minutes per week.

With quick and regular training, your people better understand and retain what they learn. Weekly Safety Meetings are delivered directly to your inbox, so you're always ready for a safety meeting.

**Safety** isn't just a goal, it's a culture.

When your people know how to work safely, the OSHA inspector is happy, your workers' compensation premiums stay low, and most importantly, your people go home in one piece at the end of the day. Weekly Safety Meetings help you promote a culture of safety.

**Meetings** are easy to hold.

Gather your crew and:

- 1 **Read** the simple one-page format,
- 2 **Collect** signatures to document training,
- 3 **File** as proof of OSHA compliance. It's easy to train your employees so they can identify unsafe conditions and make safe choices.
